Lanai

Designed by John Wisner

"LANAI" is our Hawaiian inspired new group of sculptured rattan designed by John Wisner for every room in the house.

Through the studied use of rattan as a natural product of the Tropics, equal in merit and acceptability to other materials in furniture manufacture, the new designs combine style and high quality workmanship in construction and finish. These designs continue to illustrate that rattan furniture has a permanent place in home furnishing equal to other furniture of casual character and styling for the living and family room — for dining — and for the bedroom.

New screen prints by Marion V. Dorn and fanciful new finishes are enchanting as Waikiki moonlight.
